

Feature Quality Comparison

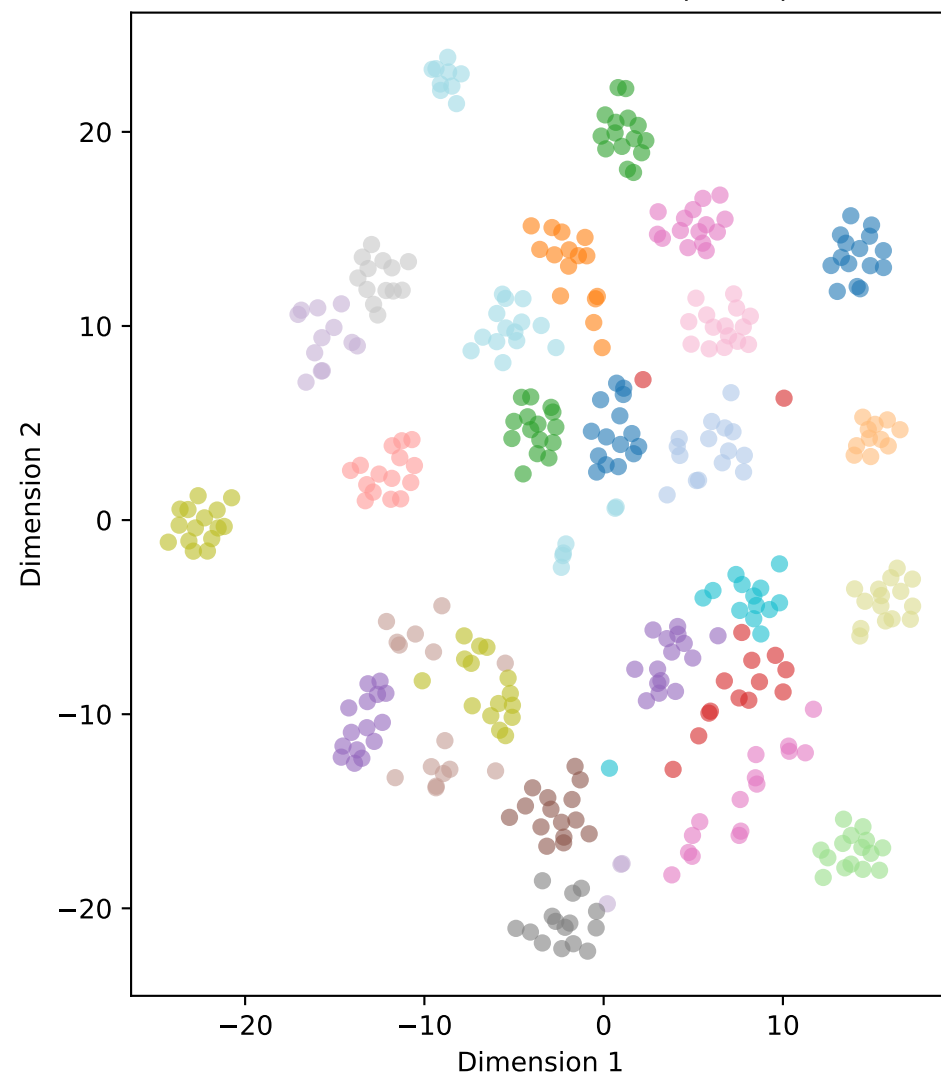

MFCC Features (t-SNE)

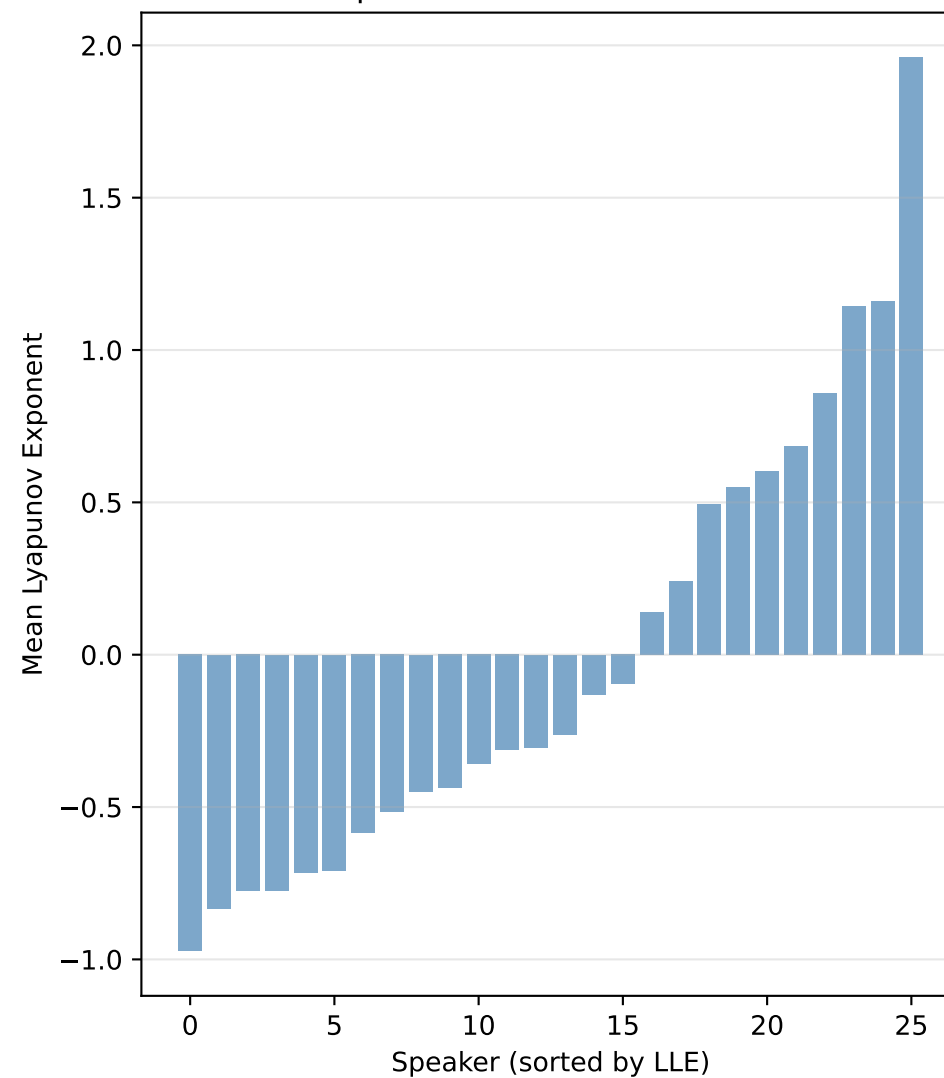

MLSA Features (t-SNE)

MFCC+MLSA Combined (t-SNE)

Per-Speaker Mean LLE Distribution

EXPERIMENT SUMMARY

Dataset: 26 Speakers (Mini LibriSpeech)
Total Samples: 382

BEST PERFORMERS:

Fisher Score: MFCC (1.3512)
K-NN Accuracy: MFCC (94.8%)

FEATURE DIMENSIONS:

MFCC: 52
Mel: 160
MLSA: 13
Combined: 65

KEY FINDINGS:

1. MLSA provides different information than MFCC
2. Combined features may improve discrimination
3. LLE varies significantly across speakers
